

Filip Ivanovic

Full-Stack Engineer

Full-Stack Engineer with 7 years of experience delivering production web applications and scalable backend systems. Trusted to take ownership of complex tasks and see them through to completion with a strong focus on quality and reliability. Uses AI-accelerated development workflows to significantly improve development speed without sacrificing engineering quality.

Technical Expertise

- **Front-End:** React (7y), Next.js (5y), Vue (6y), TypeScript (5y), Three.js (2y), React Native (1y)
- **Back-End:** PHP / Laravel (6y), NestJS / Node.js (4y), Java (2y), .NET / ASP.NET (1y), Python, Go
- **Databases:** MySQL (6y), PostgreSQL (4y), MongoDB (2y)
- **CI/CD & Cloud:** Docker, GitHub Actions, Azure, Linux
- **Tools:** Git, VS Code, Visual Studio, GitHub Copilot, Claude Code

Employment History

- **Full-Stack Developer, Indigo Labs** · *.NET, React, TypeScript* · Mar 26 – Present

Developing client applications within a software development agency environment. Currently building a full-stack web and mobile application, as the main developer, for a local MedTech startup preparing for a second round of VC funding and onboarding its first business customers.

- **Lead Full-Stack Developer, Swapsicle Inc.** · *React, Next.js, Node.js* · Nov 23 – May 25

Built and shipped multiple production web applications, including a peer-to-peer trading platform and administrative dashboards. Designed and implemented frontend features, backend APIs, and backend integrations across production systems handling real users and financial transactions. Led a small team of frontend and backend engineers.

- **Front-End Developer, Styliff Inc.** · *React, TypeScript, Three.js* · Mar 21 – Sep 22

Owned core 3D layout and alignment systems in a production B2B e-commerce software used by enterprise clients. Worked closely with QA and designers to stabilize complex interactions and improve long-term maintainability. Collaborated in a structured Agile setup with PR reviews, PMs, and Jira.

- **Freelance / Independent Developer** · Mar 20 – Present

Built and maintained full-stack web applications and SaaS products for multiple clients, owning development from architecture and implementation to deployment and maintenance.
